FOR DIESEL

ED-04
MAYO-21

DESCRIPTION

Multifunctional diesel fuel additive. System cleaning, maintenance and protection additive for diesel combustion engines.

FEATURES

Keeps the system clean avoiding the formation of deposits in the injectors and therefore extending their life. High performance in injector cleaning and re-establishing the loss of power and acceleration of the vehicle. and acceleration. Improves lubricity to prevent wear of the fuel pump and system parts. Improves cetane number (typically 2 points) by decreasing ignition delay. Benefits engine starting engine starting, decreases engine noise. Protects all system components against corrosion. Reduces fumes. Reduction of pollutant emissions, noise and diesel consumption savings. Increases engine efficiency. With anti-foaming additives to prevent foaming when filling the tank. Prevents the formation of stable water emulsions.

APPLICATIONS

On all kind of diesel engines.

HOW TO USE IT

Add the contents of the 300 cc container to the fuel tank, which should contain between 30 and 50 litres of diesel fuel.

TECHNICAL DATA

Description :		Special additive for diesel fuel
Aspect :	Visual	Transparent and bright fluid
Color :	Visual	Light yellow
pH :		8.5 / 10
Density at 20°C :		1.073 / 1.083 gr/cc.
