

DESCRIPTION:

Lubricating grease for universal use, made from special lithium-based thickeners, highly refined oils and additives, which give it a high quality. Special lithium grease for bushings and bearings.

FEATURES:

- Multifunctional grease. High mechanical work stability.
- Excellent antioxidant properties. High anticorrosive power.
- Wide temperature range.
- Lubrication of mechanisms in general.

APPLICATIONS:

Lubrication of all types of vehicles, transport, trailers, cranes, machine tools, bearings of industrial and automotive vehicles, public works machinery, conveyor belts, motor graders, motor graders industrial and automotive vehicles, public works machinery, conveyor belts, motor graders, tractors, dumpers, etc.

Grease for ball and roller bearings, bearings and all types of elements with a field of application between -20 to 120 °C. application from -20 to 120 °C.

In general, in all types of greasing where a high quality lithium grease is required.

HOW TO USE IT:

Direct application on the elements to grease.

TECHNICAL DATA:

Aspect:	Brown grease
NLGI:	GRADE 2
Base soap:	Lithium
Penetration at 25°C	265/295
Drop point:	180°C minimum
Working range:	-20°C to + 120°C
