HYDRA-FLUID

ED-04
NOV-14

DESCRIPTION:

Synthetic hydraulic fluid for the hydraulic power unit of Citroën vehicles equipped with Hydractive 3 suspension, such as the Citroën C5.

FEATURES:

- It is distinguished by its orange colour from any conventional synthetic brake fluid and from LHM Plus.
- Synthetic hydraulic fluid with high resistance to oxidation.
- Excellent power transmission at all ambient temperatures.
- High Viscosity Index.
- High anti-corrosion and anti-rust power.
- Great anti-wear power.
- Good behaviour against rubber hoses and theoretical sealing rings.

HOW TO USE IT:

Hydra-Fluid is a hydraulic fluid specifically designed for the suspension and clutches of CITRÖEN vehicles equipped with the Hydractive 3 system CITRÖEN vehicles equipped with the Hydractive 3 system, e.g. Citroën C5. Do not use as a substitute for the green mineral fluid, LHM Plus. It is used in certain devices such as power steering, shock absorber level control, hydropneumatic suspension, hydropneumatic suspension, air suspension, etc.

TECHNICAL DATA:

Description :	Oil-based hydraulic fluid	
Color:	Visual	Orange
Viscosity at - 40°C :	ASTM D-445	16 - 20 cSt maximum
Viscosity at 100°C :	ASTM D-445	6 cSt
Viscosity index :	ASTM D-2270	330 minimum
Boiling point :	UNE 26-375	265 °C
Flash point :	UNE 51-023	110°C minimum (125°C typical)

We reserve the right to modify the general characteristics of our products in order to facilitate that our clients benefit from the latest technical advances. For more information about the product, it is recommended to consult the Safety Data Sheet (SDS), available through the Customer Service Center in IADA.
