DESCRIPTION:

100% synthetic lubricant with the latest technology specially developed for the new BlueHDi, Start-Stop Diesel and Petrol engines with particulate filter. Common in Citroën, Peugeot, DS. It provides great fuel savings, guarantees outstanding engine protection and cleanliness and is compatible with exhaust after-treatment systems (mid SAPS profile). Particularly suitable for use with recent Stellantis/PSA engines (DV5R and EB2DT), and in particular those equipped with BLUE HDi, PureTech with Stop & Start technologies and hybrid engines requiring new generation engine oils.

CHARACTERISTICS:

- Uses 100% synthetic technology
- Bonds to metal surfaces making engine parts more wear resistant
- Combines synthetic technology to provide greater protection in both high and low temperature applications
- Offers continued protection in all driving styles and temperatures
- Provides superior performance in extreme cold start conditions.
- Reduced impact on the environment: fuel consumption savings of 3.33%, measured in the official ACEA M111 FE test and savings of over 4.2% measured in the official NMVEG cycle test to measure CO2 emissions.

APPLICATIONS:

PSA GROUP engines (Peugeot/Citroën/DS) requiring a PSA B71 2010 oil such as Blue HDi, PureTech, hybrid engines, engines equipped with a Stop & Start system, etc. This ACEA C5 oil is also suitable for petrol and diesel engines of other car manufacturers requiring an ACEA C5 SAE 0W-20 oil.

TECHNICAL DATA

Description :	Oil 100 % synthetic
----------------------	---------------------

Aspect :	Bright and clear fluid
-----------------	------------------------

Viscosity at 100°C :	ASTM D-445 5.6-9.3 cST.
-----------------------------	--------------------------------

Viscosity index:	ASTM D2270 160 min
-------------------------	---------------------------
