TECHNICAL DATA SHEET

HAND PLUS PRO

ED-01
JUL-25

DESCRIPTION:

It is a powerful degreasing paste with natural micro-particles for manual hand washing.

Its degreasing and emulsifying components provide high cleaning power.

This paste is designed to remove stubborn dirt such as grease, burnt oils, lubricants, inks, carbon residues, oxides, etc.

It is especially recommended for use in: automotive workshops, metal machining, foundries, printing shops, gas stations, service stations, and in general, any industry where heavy and persistent dirt may occur.

This product complies with current legislation on biodegradability and the Technical Health Regulations on detergents.

CHARACTERISTICS:

Its high wetting power allows it to reduce the surface tension of grease and oils, dissolving their anchor points and allowing it to penetrate fingerprints and nails, thus ensuring absolute cleanliness.

It does not irritate or cause flaking typical of caustic and abrasive products.

Contains substances that protect and soften the epidermis.

HOW TO USE IT:

Apply the product to dry hands, rubbing them vigorously until the dirt has emulsified and then rinse with plenty of water. If the remains of dirt persist, repeat the operation to obtain a magnificent cleanliness and softness of the skin.

The dosage varies between 1 and 3 grams of product.

TECHNICAL DATA:

Description :	Degreaser Cream
Aspect :	Beige color paste
pH:	UNE 26-390 8,0 +/- 1,0

*** We reserve the right to modify the general characteristics of our products in order to make it easier for our customers to benefit from the latest technical advances. For more information about the product, it is recommended to consult the Safety Data Sheet (SDS), available through the Customer Service Center at IADA.*

PRODUCT INFORMATION:

CONTAINS, AMONG OTHER COMPONENTS:

15–30% Aliphatic hydrocarbons

5–15% Non-ionic surfactants

Less than 5% Anionic surfactants

Fragrances

Preservatives: Phenoxyethanol; Iodopropynyl butylcarbamate
