

DESCRIPTION

Diluted engine coolant with ethylene glycol base specially formulated for use in light vehicle engines. Long Life. Organic Technology OAT. Direct use. Do not dilute.

CHARACTERISTICS

Protection of coolant circuits against cold. Completely organic formula. Does not contain nitrites, nitrates or amines. Free from silicates. Good heat exchange that allows efficient cooling of the engine. Compatible with gaskets, sleeves, and plastic components. Eliminates the formation of deposits due to phosphate-free formulation.

HOW TO USE IT

It does not require any manipulation. **Direct use. Do not dilute.**

It is recommended, prior to its incorporation into the circuit, to remove residual liquid of previous to avoid interference and to have the maximum performance of the product.

TECHNICAL DATA

Aspect :	Bright and transparent fluid	
Color:	Yellow - Blue - Pink - Lilac - Green	
Density (20°C) :	UNE 26-389	1.062 / 1.072 g/ml
PH	UNE 26-390	7.5 / 9.0
Alkaline Reserve	UNE 26-388	0.6 - 2.6 ml HCl 0.1M
Freezing Point	UNE 26-391	-35 °C ± 2 °C
Boiling Point (c.c.)	UNE 26-375	145°C ± 2 °C

**** We reserve the right to modify the general characteristics of our products in order to make it easier for our customers to benefit from the latest technical advances. For more information about the product, it is recommended to consult the Safety Data Sheet (SDS), available through the Customer Service Center at IADA.**
