## TECHNICAL DATA SHEET

# ENGINE DEGREASER DS-600

ED-00  
!Dh-13

### DESCRIPTION:

Degreaser of engines and parts in general. Very energetic Not suitable for aluminum. Aqueous base.

### CHARACTERISTICS:

- Strongly alkaline detergent.
- Aqueous base and biodegradable product.
- Formulated with soaps that comply with the Detergent Regulation EC 648/2004.
- The product diluted in its application does not represent any danger to the environment.
- Do not pour the concentrated product into the water course, drains, etc. having a high PH and being corrosive (see information in the safety sheet).

### HOW TO USE IT:

It will be mixed with water in the proportions of 20 to 50%.

Never use it pure. In high concentrations, can attack the paint of the car.

This product can attack aluminum by having a high PH. It is not advisable to leave submerged pieces of this metal with the liquid.
